

“Build it and they will come...”

Taken from “Field of Dreams” movie

A Personal Note from Dr. Kleber...

As you’ve seen in the movie “Field of Dreams,” miracles can happen. We heard our patients, who have been with us in the beginning, that you wanted MORE! We knew that we had to expand in order to fulfill all of your requests - you wanted more knowledge of how to maintain a healthy lifestyle, more services to provide complete healthcare, and more professionals who would make your experiences more meaningful. We also knew that we needed to respect your busy schedule. Well, we have built it and now we need YOUR help...

Because you have become a valued patient, I need to ask for your assistance in building our business to the next level.

My business for years has been based on your referrals. You have made my business what it is today. If you are a happy patient who has experienced relief of chronic illness, I need your help in selling our services.

As a thank you, I have developed a “Refer-A-Friend” promotion that will benefit you and your family and friends for helping me with this venture.

I appreciate your patronage and your referrals and please know that I am here to help you achieve total wellness.

*Sincerely,
Dr. William Kleber,
Board Certified
Chiropractic Internist*
